

# AGRICULTURAL EXEMPTION GUIDANCE DOCUMENT AND LIST OF REQUIREMENTS

## **AGRICULTURE EXEMPTION**

- Land Use Permit signed and approved by the municipality
- PMCA 2 page Building Permit Application
- Plot Drawing – (Show location and distances of proposed structure in proximity to all other improvements, utility lines, easements, right of ways and property lines)
- Ag Exemption Affidavit – This is used to help administer the Ag Exemption request
- The Schedule F is NOT a requirement but nice to have and appreciated.
- Verification that the Structure is NOT going to be within a Flood Plain or Flood Way (Plot Drawing must show any nearby water courses).
- If in Flood Plain** – Any project located in a flood plain may not obtain a Agricultural Exemption until such time that all documentation for Construction in a Flood Plain is submitted and approved.
  - All Construction occurring 18” above the base flood elevation or below must obtain permitting and meet the requirements of the Local Municipal Ordinance(s), Pa Uniform Construction Code and the International Building Code. The elevation of the lowest floor containing habitable space must be at least 18” above the Base Flood Elevation.
- Fee of \$70 to cover Application / Administration / Review Letter and Mailing

**► When constructed under this exemption the use of the structure is limited to those defined under 35 Pa Code 7210.103 as follows: ◀**

“Agricultural building.” A structure utilized to store farm implements, hay, feed, grain or other agricultural or horticultural products or to house poultry, livestock or other farm animals, a milk house and a structure used to grow mushrooms. The term includes a carriage house owned and used by members of a recognized religious sect for the purposes of housing horses and storing buggies. The term includes a structure that is less than 1,000 square feet in size which is utilized to process maple sap.

The term shall not include habitable space or spaces in which agricultural products are processed, treated or packaged and shall not be construed to mean a place of occupancy by the general public.

This term also includes: no more than one structure per parcel of land which meets all of the following requirements:

- i. The structure is used for the direct, seasonal sale of agricultural commodities.
- ii. The structure is open on at least 25% of the perimeter of the structure when in operation.
- iii. The structure is operated by a producer whose products make up not less than 50% of the agricultural commodities being sold.
- iv. If not located on the producer’s property, the structure is erected for less than 180 days of a calendar year.
- v. The structure has an area of not more than 1,000 square feet.

Some key words here are those that specifically define the agricultural use of the structure. The storage of automobiles, use as a workshop, or for anything other than agricultural implements (not for hire), housing of animals other than livestock (wildlife, companion animals, etc. For example or the use as a kennel), use as office space or additional living or habitable space, the installation of any feature that would turn the structure into habitable space all are items which would violate your agricultural exemption and void the current approval.

Any such use is a change of approved occupancy and requires application for and approval of a Change of Use or Occupancy from the municipal Building Code Official prior to commencement of the activity or use. Such a change of use or occupancy would require compliance with whatever the current code is at the time of application. This compliance determination will require that the current code administrator then evaluate the structures design and construction as well as the intended use to determine code compliance.

Violation of any of the above conditions constitutes a criminal offence in the Commonwealth of Pennsylvania under 35 Pa Code 7210.903, with each day becoming a new violation.

### ► An Agricultural exemption of a structure is limited to those defined under 35 Pa Code 7210.103 as follows: ◀

"Agricultural building." A structure utilized to store farm implements, hay, feed, grain or other agricultural or horticultural products or to house poultry, livestock or other farm animals and a milk house. The term includes a carriage house owned and used by members of a recognized religious sect for the purposes of housing horses and storing buggies. The term shall not include habitable space or spaces in which agricultural products are processed, treated or packaged and shall not be construed to mean a place of occupancy by the general public.

- It is important to note that buildings containing areas that agricultural products are processed, packaged, or treated are NOT exempt from the Code.
- Also any space that is used to conduct business, such as an office, or places of occupancy that could be open to the general public must be permitted and meet all Code requirements.
